PROFESSIONAL SUMMARY

Results-driven Full-Stack Developer with 4+ years of experience building scalable web and mobile applications. Proven track record of improving application performance by 40% and code efficiency by 35% through innovative solutions and best practices. Expert in modern JavaScript frameworks (React, Vue.js, Next.js) and backend technologies (Node.js, Django, Python). Passionate about creating user-centric solutions and collaborating with cross-functional teams to deliver high-quality products. Multilingual professional fluent in English, Korean (Advanced - KIIP Level 5), and Uzbek, enabling effective communication in diverse team environments.

PROFESSIONAL EXPERIENCE

Full-Stack Web Developer   *March 2023 - October 2025*

Quintet Systems Co., Ltd.

Seoul, South Korea

- Improved code efficiency by 35% through development of reusable components and modular architecture
- Enhanced web application loading speed by 40% through performance optimization techniques and lazy loading
- Successfully integrated third-party APIs and services to extend application functionality and improve user experience
- Collaborated with multiple feature teams to gather business requirements and translate them into technical specifications
- Optimized user experience through responsive design and cross-platform compatibility across all devices
- Mentored junior developers and conducted code reviews to maintain high code quality standards

Tech Stack: React, Vue.js, Next.js, Nuxt.js, Node.js, Express.js, TypeScript, PostgreSQL, MongoDB, Docker, AWS

Web Frontend Developer   *2021 - 2023*

Ebridge World Co., Ltd.

Seoul, South Korea

- Developed intuitive and responsive user interfaces for web and mobile applications using Flutter and Vue.js
- Improved app performance by 30% through implementation of state management solutions (Provider, Bloc, Redux)
- Converted UI/UX wireframes and prototypes to high-quality code with 100% design accuracy
- Enhanced team code quality by 20% through active participation in code reviews and constructive feedback
- Integrated backend APIs using Django and Python for seamless frontend-backend communication
- Conducted thorough testing and debugging to ensure frontend code quality and stability

Tech Stack: Flutter, Vue.js, Django, Python, Provider, Bloc, Redux, HTML5, CSS3

TECHNICAL SKILLS

Frontend:	React, Vue.js, Next.js, Nuxt.js, TypeScript, JavaScript, Flutter, React Native, HTML5, CSS3, Tailwind CSS, Redux, Vite
Backend:	Node.js, Express.js, Django, Python, REST APIs, GraphQL, Microservices, JWT, OAuth
Database:	PostgreSQL, MySQL, MongoDB, Redis, Firebase, SQL Procedures
DevOps & Tools:	Docker, Git, GitHub, AWS Lambda, AWS S3, CI/CD, Webpack, NPM, Yarn
Other:	Agile/Scrum, Code Review, Testing, Performance Optimization, Responsive Design, Cross-platform Development

KEY PROJECTS

BanaTalk - Language Exchange Platform   **banatalk.com**

International language exchange platform connecting learners worldwide for conversation practice and cultural exchange. Implemented real-time video chat, matching algorithm, and user authentication system.

Tech: React, TypeScript, Django, PostgreSQL, WebRTC, Socket.io

TezSell - E-commerce Platform   **webtezsell.com**

Local marketplace platform similar to Korea's Carrot Market, enabling peer-to-peer buying and selling in Uzbekistan with location-based services. Led development team and architected the entire system.

Tech: Flutter, Django, PostgreSQL, Redis, REST API, Firebase

AI Buddy Chatbot Project   **View Demo**

AI-powered conversational chatbot with real-time messaging capabilities and intelligent response generation. Integrated AI API for natural language processing and context-aware conversations.

Tech: TypeScript, React, AI API, WebSocket, CSS3

ProShop E-commerce Website   **GitHub**

Full-stack e-commerce platform with product management, shopping cart, payment processing, and user authentication. Implemented PayPal integration and order management system.

Tech: React, Express.js, MongoDB, Redux, PayPal API, Node.js

LA International Airport Financial System

Financial services system for LA International Airport with loan and insurance application processing. Managed project timeline, coordinated with stakeholders, and ensured successful delivery.

Tech: Vue.js, TypeScript, Node.js, AWS Lambda, MySQL

EDUCATION

Bachelor of Computer Science and Engineering
Sejong University
Seoul, South Korea | Graduated: 2022

Key Subjects: Software Engineering, Database Systems, Algorithms, Web Programming, Data Structures

CERTIFICATIONS & AWARDS

- KIIP Level 5 Completion (Korean Immigration & Integration Program) - 2023
- Outstanding Project Achievement Award - Ebridge World, 2022

LANGUAGES

- English: **Native Level - Fluent**
- Korean: **Advanced (KIIP Level 5) - Business Proficient**
- Uzbek: **Native - Mother Tongue**
